Virtual Spanish Classes

As part of our adaptation to the COVID-19 situation, Costa Rica has been moving to the education online as an important option to keep opportunities for people to develop educational processes in order to increase soft skills and intercultural learning worldwide.

Costa Rica offers one of the clearer Spanish from the many countries who speak it as mother language. Here at the ACI organization, we have more than 10 years offering Spanish Courses to foreigners as a complement to the International Voluntary Service (IVS) experience. We have the support from young Certified Spanish Teachers who will focus the learning of the language with intercultural topics.

International students have the opportunity to learn from their homes, by using digital communication tools such as ZOOM, GOOGLE MEETS or MICROSOFT TEAMS. Each local teacher will coordinate directly with the students which system to be used. Classes will be given for minimum periods of one week and then not maximum involved. The course will have classes of **2 hours a day, five days a week**, beginning every **monday** of each week during the next months.

Classes can be scheduled in the mornings or afternoons, depending on availability of the interested students and our local teachers. ACI will coordinate with all parties involved as soon as we receive information from students.

Our teachers can accept all levels possible, from beginners to advance.
